

## COVID-19 resources for Radiology Program Directors

Updated: March 23, 2020

While the entire radiology community is struggling with the COVID-19 pandemic, residency training must go on. The APDR is closely monitoring multiple reliable data sources and collecting COVID-19 materials in order to support resident education and program administration.

1. COVID-19 teaching files for residents and faculty:
  - a. [10 COVID cases](#)
  - b. [40 COVID cases from Italy](#)
2. What the Department of Radiology should know:
  - a. [Review of epidemiology and the imaging findings of coronavirus syndromes](#), with a focus on the reported imaging findings COVID-19 pneumonia, as well as precautions and safety measures for radiology department personnel.
  - b. [Radiology Department Preparedness for COVID-19: Radiology Scientific Expert Panel](#)
3. [Rescheduling non-urgent care](#): “The ACR fully supports and recommends compliance with the Centers for Disease Control and Prevention (CDC) guidance that advises medical facilities to “reschedule non-urgent outpatient visits.”
4. [The use of CT in suspected COVID-19: ACR position](#). “CT should not be used to screen for or as a first-line test to diagnose COVID-19. CT should be used sparingly and reserved for hospitalized, symptomatic patients with specific clinical indications for CT. Appropriate infection control procedures should be followed before scanning subsequent patients.”
5. Research collections on COVID-19
  - a. [AJR COVID-19 special edition](#)
  - b. [Radiology special focus COVID-19](#)
  - c. [Lancet COVID-19 resource center](#)
